2) **Brief description about the club**

*-Motto*

Encompassing Scholars

*-Description/Aim*

MC Scholars Club is a student association under the Centre of Postgraduate Studies, Faculty of Communication and Media Studies, Universiti Teknologi MARA (UiTM). The club represent students across five different postgraduate programmes (three Master programme, two Ph.D. programmes) with about 300 members, from Malaysia and other countries such as Indonesia and China. Established in 2019, our aim is to provide a platform for postgraduate students to further develop soft skills and networking skills with other higher learning institutions and industry players. The association has been known to initiate the inaugural International Conference on Media and Social Science (iCOMS), as well as the MASS COMM Student Mobility Programme. In parallel to the aim of the faculty and university, the club organize programmes with the true potential of promoting internalization, which would be a big contribution to the field of communication and media studies as well as the society. These programmes would also bridge the gap of opportunities for the members to become more recognized by other higher learning institutions and industry players as well as promoting the club's initiatives itself.
